SPORTS FRAMES FOR  
EYE PROTECTION

PROGEAR aims to design and build professional and comfortable protective sport eyewear with coolness and safety in mind. Our wish is to let everyone in all age groups to be able to participate in all sorts of sports, safely!

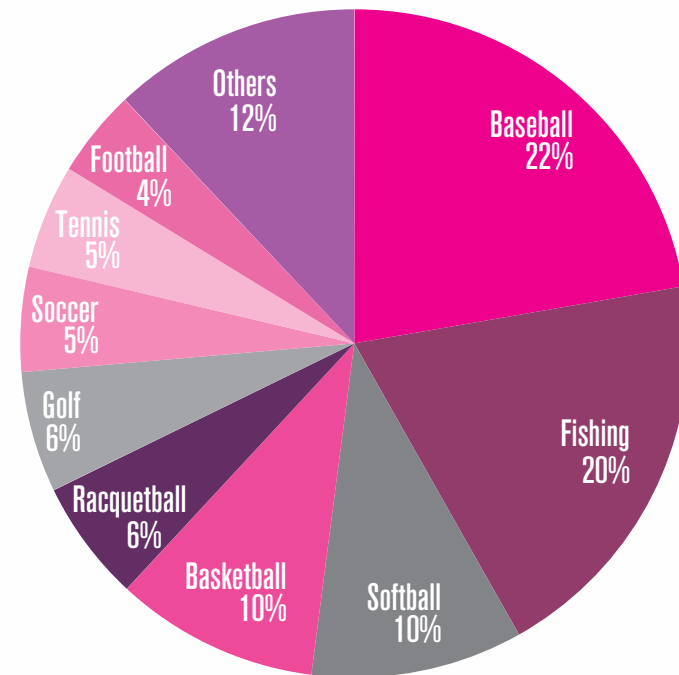

# LOOK COOL — BE SAFE

SPORTS FRAMES FOR  
EYE PROTECTION

## GEAR UP! IN USA

- Every 13 minutes an emergency room in the United States treats a sports related eye injury (more than 42,000 eye injuries per year).
- An estimated 13,500 cases result in permanent loss of sight.
- Approximately 72% of sports-related eye injuries occur in people younger than 25 years and approximately 43% occur in children younger than 15 years.
- Baseball is a leading cause of sports-related eye injury in children aged 14 and under.
- The leading cause of sports-related eye injuries among 15 to 24-year-olds is basketball.
- Boys aged 11-15 were up to 5 times more likely to sustain eye injuries requiring hospital treatment than girls of the same age. Most of these injuries are related to sports and projectiles, including toys, darts, sticks, stones and air guns.
- 1 in 18 college athletes will sustain an eye injury; the odds are 1 in 10 for basketball players.

### SPORTS-RELATED EYE INJURIES

Source : Gear Up! Sports- Related Eye Injuries: What You Need to Know and Tips for Prevention, National Eye Institute, National Institutes of Health

## Right in the Middle and Enjoying the Sports Activities... Many Injuries Occur During School Sports!

What's good for the classroom is not always right for the gym or field.

Sports Frame instead of Everyday Frame

Clear Vision for Faster Reaction

Around 95% of our movements are controlled by vision. Those who can see well while playing sports will be able to react more quickly, move more confidently, and will be in a better position to avoid dangerous accidents.

## More Safety Awareness, More Regulations

### NFHS new ruling

The National Federation of State High School Associations (NFHS) Board of Directors, in its April 13, 2011 meeting in Indianapolis, voted to mandate the use of protective eyewear that meets the current American Society for Testing and Materials (ASTM) standard for field hockey. High school field hockey players will be required to wear protective eyewear, effective with the 2011-12 season.

### New Jersey Law P.L.2005, c.306

Any child who wears corrective eyeglasses while participating in racquetball, squash, tennis, women's lacrosse, basketball, women's field hockey, badminton, paddleball, soccer, volleyball, baseball or softball, sponsored by a school, community or government agency, shall be required to wear protective eyewear that meets the frames standards of the American Society for Testing and Materials (ASTM) F803 and lens standards of the American National Standards Institute (ANSI) Z87.1 . The NJ Law went into effect July 11, 2006.

### House of Representatives of Florida:

The Florida House of Representatives recognizes the seriousness of sports-related eye injuries in children and the importance of sports eye safety in protecting Florida's children and applauds the efforts of school districts, parks and recreation departments, and other local, county, and state entities sponsoring organized sports activities to advocate the use of appropriate protective eyewear when children participate in sports.

**Interior side cushion** to absorb impacts

**Expanded thermo-plastic rubber (TPR) nose pad** (anti-allergenic) for additional protection

**Removable neoprene band** with washable Velcro fastener

**High viscosity polycarbonate lens (6-base)** with 3 mm center thickness in optical quality, hard coating and UV protection

**Super tough polycarbonate frame** for increased impact protection, and widest field of vision

**V-shaped groove** (1.6 mm high towards the inside) for lens safety in the event of impact

## IDEAL PROTECTION AND COMFORT

- Dynamic/ergonomic design, extremely robust frames.
- Specially faceted mount for lens safety, Rx-able, wide power range.
- Patented lens locking system for trouble-free glazing.
- Uncut safety lens (CT ≥ 2mm) stock available.
- Worldwide authorized laboratories offer expert glazing service.
- All PROGEAR EYEGUARD sport eyewear are ASTM F803-03 (USA), EN 166 (Europe) and JIS T8147.5.1d (Japan) certified for impact resistance.

- The ONLY eyewear in the world that are certified in all three countries/regions.
- Products certified under these standards are subject to stringent tests of high speed impacts simulated for various sports.
- Four available sizes (S, M, L and XL) to ensure optimum fit.
- All Eyeguard sports eyewear are supplied with plano, optical quality polycarbonate lens, including case and microfiber cloth.

\* All PROGEAR Eyeguard sports eyewear is ASTM F803-03 certified by the American Society for Testing and Materials; an international organization for standardization that has strict requirements upon which PROGEAR has based its own quality assurance. In addition, all PROGEAR Eyeguard sports eyewear with plano glazing has been certified as protective eyewear in accordance with European protective eyewear standard **EN 166**.

SPORTS FRAMES FOR  
EYE PROTECTION

This WindGuard is an add-on shield interface for Progear Eyeguard series sports frames (sold separately). It shields your eyes from the onslaught of rushing air and debris that threaten safety and performance. When not in use, rinse, dry and store in a cool place.

Windguard (Sponge Version)  
Sweat-absorbing lining designed for skiing, cycling, skateboarding and certain extreme sports

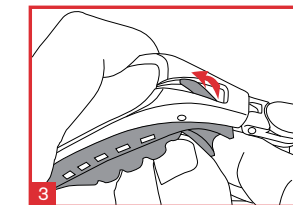

EG-S1013S EAN code : 4894303101320  
EG-M1023S EAN code : 4894303102327  
EG-L1033S EAN code : 4894303103324

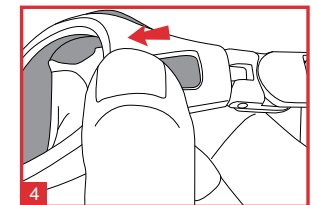

1 Remove both rubber side-cushions from back of Eyeguard frame.

2 Align and insert the WindGuard to the back of the Eyeguard frame.

3 Insert the rubber side-cushions that come with the WindGuard through the rectangular slots on Eyeguard frame to engage.

4 **DO NOT** pull the tip while inserting the side-cushion. Push from back and “rub” the front of rubber cushion in the direction shown to squeeze through the slot.
